```
query biomart database ENSEMBL GENES 79 (SANGER UK) and dataset Homo sapiens genes (GRCh38.p2)
    get attributes Ensembl Gene ID from feature of types string with column group annotation ID
                   Ensembl Exon ID from feature of types string with column group annotation select a group
    filters Ensembl Gene ID(s) [e.g. ENSG00000139618] from a set of ids ids set
           with miRBase ID(s) where values are false
    -> resultFromBioMart
```
